

MFHEA COMMUNICATION MFHEA/02/2021

Title: Mandatory Standards and Guidance Documents (COVID-19)
From: CEO, MFHEA
Date: 09/04/2021

Dear colleagues,

Following the press conference held on the 9th April 2021, where the Superintendent of Public Health announced that only online schooling/teaching/training is allowed for all Post-Secondary Schools and Institutes operating in Malta and Gozo, the Health Authorities published the following Mandatory Standards and Guidance Documents;

[Standards for Post-Secondary Schools and Institutes](#) (9th April 2021)

These standards apply for all Post Secondary Schools and Institutes operating in Malta and Gozo.

[Standards and Guidance for Examinations](#) (9th April 2021)

These standards have been formulated to ensure compliance to the requirements of social distancing, to enhance hygienic practices and to minimise COVID-19 infection risks during the examination process.

MFHEA encourages all Licensed Providers for Further and Higher Educational Institutions to keep supporting their students via online teaching and learning when this is possible. Any queries from our stakeholders must be sent by email to info@mfhea.mt or to the respective departments as listed on www.mfhea.mt.

Regards,

Dr Rose Anne Cuschieri
CEO, MFHEA
