Date

Dear colleague

This is to confirm that your entity has been included in the SLC Database administered by the National Commission for Further and Higher Education (NCFHE). You may wish to note that the SLC listing is NOT equivalent to and does not in any way imply accreditation by the NCFHE. SLC listing means that the NCFHE is confirming that the entity is providing the service that is indicated, and that it is eligible for the purposes of the Secondary School Certificate and Profile. Further information is available at the NCFHE website www.ncfhe.org.mt: please click on the link in the left-hand column 'SLC Database for Activities outside School Hours'.

If you already had an SLC number, this has been retained for your convenience. In this case, this communication supersedes any previous communication and certificate you may have received with respect to your SLC number, such as the one shown on the right.

This certificate is now obsolete. It should be discarded and **SHOULD NOT be used or displayed in any way.**

Regards

Sandro Spiteri
Head of QA Unit
