

Consultation on the new Programme Accreditation Standards and Procedures

Public consultation/breakfast

Brief description: In 2022 the Malta Further and Higher Education Authority (MFHEA) developed a Programme Audit Procedure, which was then implemented in two separate accreditation processes conducted as procedural pilots. Earlier this year, the authority triggered a process of revising the respective procedure and selected two independent experts to undertake this task. Based on a comprehensive international benchmarking analysis, two focus groups organised with the institutions and panels engaged in the two pilots, as well as an internal consultation process with different MFHEA structures, the experts have concluded the revised proposal of the Programme Accreditation Standards and Procedures. The present event aims at introducing these Standards to the Maltese providers and conduct a constructive consultation in order to ensure on one hand that the provisions are understood, but also to capture any comments and views providers may have, which will then be addressed before the final approval of the document by MFHEA.

16th November 2023 8am - 12pm

Facilitators: Anca Prisacariu and Aurelija Valeikienė

AGENDA

- | | |
|----------------------|---|
| 8.30 – 9.00 | Registration of participants |
